### HEALTH SAVINGS ACCOUNT (HSA)

#### What is an HSA?

- Health Savings Accounts (HSAs) are like personal savings accounts, but the money in them is used to pay for qualified health care expenses.
- An HSA gives you a triple tax break: Your contributions are sheltered from

income taxes, the money grows tax-deferred, and the funds can be withdrawn tax-free for medical expenses.

- You must have a High Deductible Health Plan to be eligible for an HSA.

### Want to Open an Account?

- Go to our website and fill out a Health Savings Account Application or call Ann at (608) 654-5121 for answers to your Health Savings Account questions.

### 4 Great Benefits to an HSA

1. You build a healthcare nest egg that is yours to keep - even if you change jobs.
2. You can save your HSA funds in an FDIC-insured savings account, or choose to invest it.
3. Money you don't use stays in your account year after year, earning tax-free interest.
4. If you don't use the money for medical expenses, you can spend it on a taxable basis for retirement or any other purpose after age 65
