CD vs. Savings

Why should I move my money from my savings and put it into a CD? Call today or stop and speak to an account representative today! 608-654-5121

BANK OF CASHTON

CD vs. Savings

- Interest Rates are different. Savings interest rates fluctuate, and CD is a fixed rate locked in the CD term.
- Accessibility your savings account you are able to add or withdrawal money at any time. The CD is locked for specific term.
- Time Commitment savings you can keep your money in the account indefinitely. CD your money is committed to the term of CD (month(s) or years(s)).

Example: \$10,000 in savings @ 0.40% APY yields \$9.99 for 3-months

Example: \$10,000 in 3-month CD @ 4.20% APY yields \$103.39 for 3 months

National Insurance Awareness Day

Tomorrow is National Insurance Awareness day. Why is this day important? 1. A reminder to check out the competition 2. As life changes, so should your policy 3. Reviewing your policies can uncover cost-saving opportunities or added benefits

National Insurance Awareness Day

BANK OF CASHTON

How to observe National Insurance Awareness Day

1. Make the call

Call your insurance agents to ask about current promotions, services or lock-in-rates as well changes in your premiums.

2. Go shopping for insurance

Some confident insurance companies will offer information about their competitor's rates while trying to sell you insurance. This bold move on their part can save you time while you search for the best deal.

3. Take charge to change your rates

Whether it's taking an online, defensive driving course, hitting the gym a few times a week, or putting in a home security system, these doable actions can lead to added savings on your various insurance policies.
